

Covid-Aware Penn Student Undergraduate

Demographic Data / Background

Age: 18- 23 years

Job: Student

Background: Pre-COVID lifestyle, tired of quarantining, wants to see friends in a safe way, wants in person classes back ASAP!

Behaviors

- Student wears a mask regularly when in public spaces, or indoors
- Student only spends time indoors/unmasked with their “pod”
- Student abides by the Penn Student Compact as closely as possible
- Student gets COVID tested 2x a week, per University guidelines

Problem/Pain Points

- Not being able to sign up for testing <24 hrs in advance
- Only being able to get tested on pre-assigned days
- Other students acting irresponsibly
- Unable to return to a normal lifestyle, despite following COVID precautions

Urgency/Intensity

This student reads the news regularly, and is up to date with COVID rates and deaths across the world. They may have had a family member or someone close to them be seriously affected by the pandemic. These aspects tie them emotionally to the problem.
